Latest from the Gold Regions,
MORMONS GOING TO THE MINES.

From the Kansas City Journal of Commerce, Nov. 4.)

Ir. Elsbach, one of our Westport merchants, arrived on
Tuesday from Salt Lake. The gold fever had reached the
city of the Saints before he left, and many had started for
the mines, and more were preparing to leave. Mr. Elsback
came by way of the Cherry Creek diggings, in order to
satisfy himself as to the truth of the reports which had
reached Salt Lake City.

the dockets of the Courts of this State at least one thou-aid applications for divorce, more than four-fifths of ich are from non-residents. The Lafayette Journal mates that it is altogether a mistake to attribute the nia of unhappy wives to flee to this State to procure a solution of the matrimonal relation to our "facile is." It is the lawyers, not the laws, that draw then our State. It is generally known in interested circles it we have the most agreeable and accommodating yeers for this branch of the professional business to be and in any State in the Union.

A SINGULAR PHENOMENON.—In the recent address of the Hon. T. L. Clingman before the North Carolina State Fair, he mentions in connection with the manufacture of wine, and the difficulty on the Atlantic slope of the United States of preventing its acctous fermentation, a remarkable fact concerning a locality of the western part of that State. In a district of a few miles in extent, on the TryonFmountain, neither dew nor frosts is ever seen. The same district is remarkable for the variety and excellence of its native grapes, and they are often found in fine condition in the open air as late as December. The dryness of the atmosphere in the locality mentioned, and its equability of temperature, are most remarkable.
